STATUS INQUIRY

Applicants respectfully request that the status of the above-identified patent application be communicated immediately to the address or phone number below. Applicants filed this application by US Express Mail No. EV327522454US on 10/31/2003. The postcard was returned with the serial number assigned, but no other correspondence has been received from the Patent Office, specifically no Filing Receipt.

We are no longer enclosing a self addressed card for the purpose of your returning it to us with the status, because the mail room consistently removes it (even though we staple it, as specified, to the request) and sends it back to us along with the card we provide for the purpose of indicating the receipt of this request.

Respectfully submitted,

PATRICK MICHAEL DWYER
